

MAP AMENDMENT APPLICATION CHECKLIST

This application must be completed in its entirety. The application must accompany any and all information required for the public hearing notice and planning commission meeting requirements.

Pre-application meeting with staff: Prior to submittal of this application, the applicant is strongly encouraged to discuss the proposed project, annexation and submittal material with the Inspection Department staff; with a minimum of 30 day prior to the scheduled commission date.

Process

At the time of application you will be asked to:

1. **Complete an application** form, completed checklist and submit a \$250 fee;
2. **Provide detailed plans** and all information required for public hearing notice and commission meeting requirements;
3. **Provide a written statement** of verifiable facts and information requested for the map amendment (this would include a letter from the owner of the property if they cannot be present at the meeting);
4. **Publication Fees:** Shall be paid by the applicant and/or owner once submission to the official newspaper has been made and billed to you; and
5. **Proof of publication:** must be presented to the Inspection Department **BEFORE** the public hearing can be heard.

Following these steps, the Inspection Department will prepare and submit the required public hearing notice for your map amendment request in the City's official newspaper noting the location and time of the required public hearing before the Planning Commission. Your neighbors (within 100' of the property) will also be notified. The burden will be on you as property owner and/or agent to provide information upon which the commission may base its decision. At the public hearing, any party may appear in person or may be represented by an agent or attorney. You or your agent must present all information needed to the Planning Commission to make a decision in your favor. Unless you or your agent is present, the commission may not have sufficient information to vote and must then deny or table your application.
